SECTION 01

Who we are

Three generations, one workshop in a Daugavpils courtyard. Stone, gypsum, natural minerals and colour, shaped by hand into pieces that stay in a family.

BRAND ESSENCE

Heirlooms, not products.

Trosheen makes one-of-a-kind stone, gypsum and mixed-media pieces for the home and garden: planters, candle vessels, fountains, botanical-imprint stones and painted figures. Every piece is cast, shaped and finished by hand by the family. Oļegs at the bench, Alisija and Nikolass asking for the next one to paint.

TAGLINE

Made to be handed down.

LV: Radīts, lai nodotu tālāk.

PROMISE

Every piece, one of a kind.

LV: Katrs darbs — vienīgais tāds.

MISSION

To make honest, long-lasting pieces by hand, so that the most sustainable thing in your home is the one you never throw away.

WHO IT'S FOR

Garden and landscape lovers, interior lovers and thoughtful gift shoppers in Latvia, Poland and wider Europe. People who buy fewer, better pieces.

MOOD

Quietly luxurious · Nordic calm · Heirloom

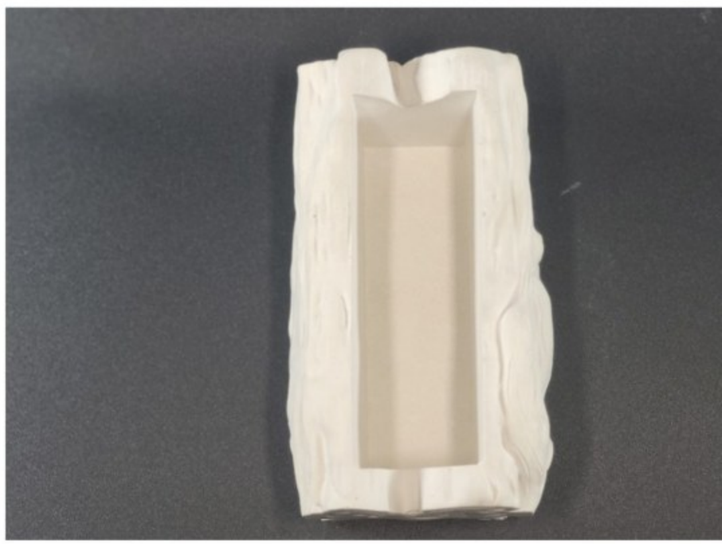

SECTION 02

Name & logo

One name, one seal. The Maker's Seal is the mark we would cast into the base of every piece.

THE NAME

It's simply Trosheen.

The site and socials currently use four spellings. From now on there is one. "Crafts" made the brand sound like a hobby; the work deserves a maker's name.

RETIRE	USE
~~Trosheen:Crafts~~	Trosheen
~~TrosheenCrafts~~	Trosheen
~~Trosheen Crafts~~	Trosheen
~~TroSheen~~	Trosheen

In running text write "Trosheen", never all caps. The domain stays trosheen.shop.

Horizontal lockup: the website header, email and documents.

LOGO SYSTEM

One family of marks, all transparent.

Every mark ships as a vector file and a high-resolution PNG with no background, in five brand colours. The seal is never redrawn, never stretched and never recoloured outside the palette.

The Maker's Seal

Primary mark. Favicon source, sign-off, product stamp.

Stacked lockup

Packaging, posters, square formats.

Wordmark

Narrow spaces where the seal would be too small.

T app icon

Favicon, app and social profile at small sizes.

COLOUR PAIRINGS, CLEAR SPACE & SIZE

Where the seal can live.

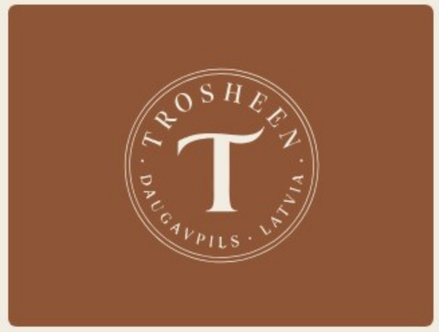

Spruce on Linen
Default

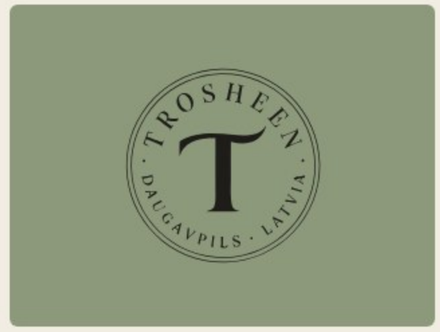

Linen on Spruce
Reversed

Gilt on Basalt
Premium details

Linen on Kiln
Gifts, warm moments

Basalt on Lichen
Soft panels

Clear space

Keep space equal to ¼ **of the seal's width** on every side. Nothing (text, edges, other logos) enters that space.

Minimum size

Seal: **48 px / 15 mm**. Below that, use the T app icon. Horizontal lockup: **140 px** wide in the site header (desktop 180 px).

Don't

- Never put the seal on a busy part of a photo
- Never stretch, rotate or add shadows/glows
- Never recolour outside the six brand colours
- Never use Gilt or Lichen marks on Linen (too faint)
- Never bake the logo or buttons into product photos

TYPOGRAPHY

Fraunces & Jost.

Fraunces is a soft, old-style serif with a maker's warmth; Jost is a calm geometric sans for reading. Both are free, open-licence and fully support Latvian (ā č ē ģ ī ķ ļ ņ š ū ž) and Polish.

Website change: headlines already use Fraunces. Body text currently uses Inter → switch to **Jost**.

VOICE & TONE

Warm, calm, honest, crafted, quietly proud.

Your website already has a great voice. The family story, Oļegs' world and "Plaukti atpūšas" are exactly right. Keep it, and apply it everywhere, including buttons, filters and error messages.

Warm

We talk like the family we are.

"Atbildam kā ģimenes darbnīca, nevis zvanu centrs."

Calm

Short sentences. No exclamation marks, no hype.

"Plaukti atpūšas." (empty shop)

Honest

Only say what the piece really is. Show, don't claim.

"Smags, vēss pieskārienā, kā īsts akmens."

Crafted

Name materials and hands, not adjectives.

"Oļegs iespiež pirkstu nospiedumus mitrā ģipsī."

Quietly proud

Let the work speak; sign off with the seal.

"Radīts, lai nodotu tālāk."

We say

roku darbs · darbnīca · vienīgais tāds · ģimene · mantojums · dabīgi minerāli · radīts ilgam · handmade · one of a kind · workshop

We avoid

"best", "luxury", "cheap", "SALE!!!", emoji in headlines, unprovable claims ("100%", "zero"), mixing English labels into Latvian pages

VOICE IN TWO LANGUAGES

Latvian first, English alongside.

trosheen.shop speaks Latvian by default with an EN switch (PL later). Every message is written for both, never machine-mixed on one page.

USE	ENGLISH	LATVISKI

SIGN-OFF	With warm hands, the Trosheen family.	Ar siltām rokām, Trosheen ģimene.

PHOTOGRAPHY

Real pieces, true colour.

Every image on the site and in marketing shows a real Trosheen piece exactly as it is.

- Never desaturate, recolour or replace a piece
- Never invent products or show pieces you don't make
- Warm daylight; garden, oak, linen or the workshop bench
- No cold grey concrete sweeps, no rustic kraft clichés
- Text never covers a piece. Use a calm corner or a colour panel

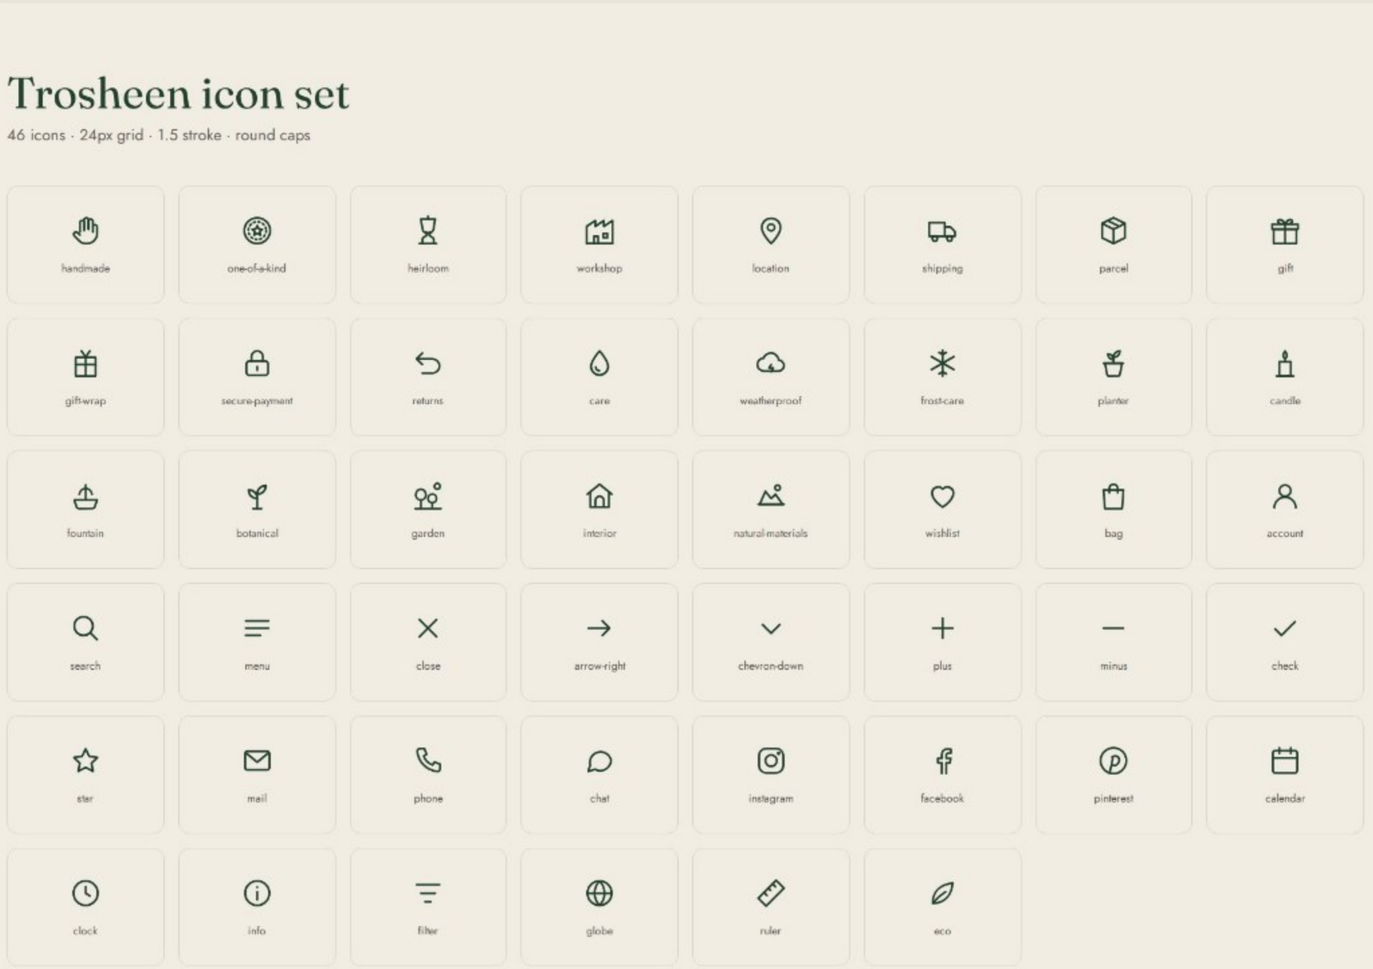

ICONOGRAPHY

46 icons, one hand.

A custom line set on a 24 px grid: 1.5 px stroke, round caps and joins. Icons inherit text colour, so they are always Spruce on Linen or Linen on Spruce.

Use for the header (search, account, wishlist, bag), the trust strip, care guide, contact and filters. Never mix in other icon sets or emoji.

SECTION 07

Website design update

What we found on today's trosheen.shop, and the system that replaces it. The story is strong; the shell needs to catch up with it.

SITE AUDIT · OCTOBER 2026

What we found.

We read all seven pages: home, Mūsu stāsts, Veikals, Galerija, Darbnīcas piezīmes, Kopšanas ceļvedis and Kontakti.

Keep

Fraunces headlines · warm off-white base · the family story and Oļegs' world · the materials guide · "Plaukti atpūšas" and the 404 copy · the contact promise "kā ģimenes darbnīca, nevis zvanu centrs".

CRITICAL

Shop, gallery and journal are empty

Shop shows "0 darbi" plus "An error occurred" messages; gallery says "Nekas nav atrasts"; journal has no posts. The hero button leads to an empty shop.

CRITICAL

"Design Yours" leads to a missing page

The custom-order link opens /constructor, a 404 page.

HIGH

Four spellings of the name

Trosheen.Crafts (header, footer, ©), TrosheenCrafts (page title), Trosheen Crafts (care guide). Use Trosheen.

HIGH

Placeholder contacts

Shop, gallery and journal footers show hello@trosheen.crafts and +371 XXX XXXXX instead of the real email and phone.

HIGH

Title says "Handcrafted Concrete Art"

Undersells stone, gypsum and mixed media, and reads cold. New title and description on p. 25.

MEDIUM

English labels on Latvian pages

CURRENT EDIT, Featured Collections, Shop Now, Custom Orders Welcome, Design Yours, MATERIAL QUALITIES, Photos/Videos filters.

MEDIUM

Body font and colours drift

Body uses Inter; text #241E19, background #F8F6F2, grey nav #6A6058, theme colour white. Move to Jost, Basalt, Linen, Spruce.

MEDIUM

Claims to back up

"2K+ laimīgas mājas", "Nulle bez atkritumiem", "100% ekoloģisks", "pārtikas klases". Keep only what you can show proof for.

LOW

Small typos

"GIMENES" → ĢIMENES · "gracioziun" → graciozi un · "Daugavpils,Latvija" → Daugavpils, Latvija

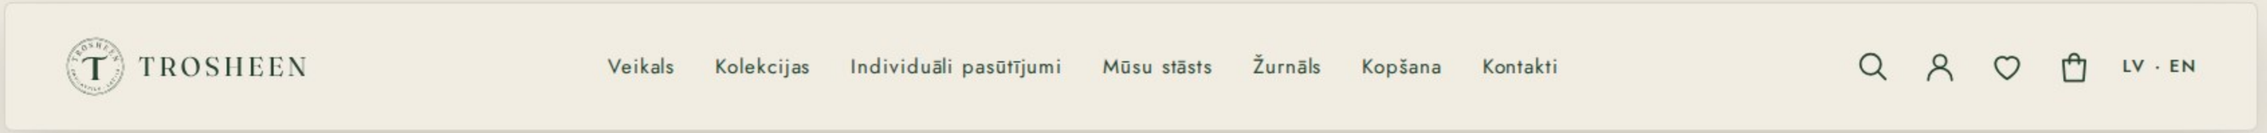

LOW

Social links & share image

Instagram/Facebook still /trosheencrafts; generic share image; no brand favicon.

NAVIGATION & HEADER

A calmer front door.

Desktop header · 96 px · Linen at 96% with a blur when scrolling · Spruce text and icons · the active page gets a 2 px Gilt underline. Mobile: seal + menu icon left, bag right.

Veikals

All pieces · filters by space (Dārzs, Mājas, Dāvanas) and material · "Tikai pieejamie" on by default.

Kolekcijas

Seasonal and themed edits using the five collection banners (p. 20).

Individuāli pasūtījumi

Replaces the broken /constructor link: a simple request form (colour, finish, scent, size) until the configurator is ready.

Mūsu stāsts · Žurnāls · Kopšana

Story stays as is. "Darbnīcas piezīmes" becomes Žurnāls. Kopšanas ceļvedis = Kopšana. Gallery moves into the story and product pages until it has content.

HOMEPAGE STRUCTURE

Five calm sections.

The current home page repeats the story three times and stacks statistics. The new one moves in one direction: see the work, trust it, choose a collection, meet the family, stay in touch.

Removed: the 30+/3/2K+ stat row and the "Nulle" block (unless backed by proof), the duplicate story sections, the English "Current edit" block.

Footer: Spruce, Linen text, seal, real email and phone on every page, social links, legal links.

1 · Hero

Full-width photo, H1 + lede in the calm corner. The site places real buttons: Skatīt veikalu / Mūsu stāsts.

2 · Trust strip

Five icons + short facts.

3 · Collections

Two to three collection banners, alternating sides.

4 · Our story

Family band with link to Mūsu stāsts.

5 · Newsletter

Vēstules no darbnīcas.

HERO SYSTEM

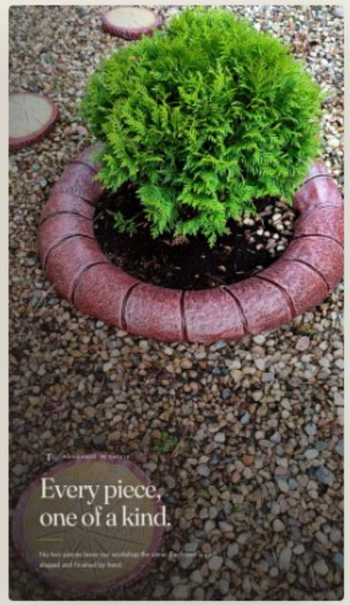

Full-width photo. Text in the calm corner. No baked-in buttons.

Desktop 1920×1080 · wide 2560×1000 · each with a no-text copy so the site can set live, translatable text and real buttons.

Mobile A · 1080×1920

Mobile B · 1080×1920

Buttons live in code

Images never contain buttons. The site places Spruce / Gilt buttons over the clean copy.

Soft shade only

A Basalt gradient (max 72%) from the text corner keeps Linen text readable.

Never over a piece

If text would cover a product, use the no-text copy or a panel layout.

Real photos

Cropped only, never edited in colour.

COLLECTION BANNERS

Panel banners for wide slots.

Your studio photos are square, so wide collection slots use a colour panel beside the photo. The piece is never cropped.

1920×640 · panel rotates Linen, Spruce, Kiln, Lichen · seal + eyebrow + headline + one line. Headlines can change per collection; the layout stays.
